

## GIT Assignment 3

### Problem Statement :

Git Basics and Repository Creation.

- Create a local Git repository for a simple project (e.g., a basic website or a text-based application).
- Initialize the repository, add files, and make an initial commit.
- Demonstrate the use of basic Git commands like git add, git commit, and git status.

### Solution:

```
Sri ram Kaushik@LAPTOP-HAKQIOL9 MINGW64 /f/Voice assistant
$ git init
Initialized empty Git repository in F:/Voice assistant/.git/

Sri ram Kaushik@LAPTOP-HAKQIOL9 MINGW64 /f/Voice assistant (master)
$ git add .

Sri ram Kaushik@LAPTOP-HAKQIOL9 MINGW64 /f/Voice assistant (master)
$ git commit -m "Just to checking working"
[master (root-commit) 7f427fd] Just to checking working
6 files changed, 292 insertions(+)
create mode 100644 .vscode/settings.json
create mode 100644 import speech_recognition as sr.py
create mode 100644 new.py
create mode 100644 voice.py
create mode 100644 voice.txt
create mode 100644 voice2.py

Sri ram Kaushik@LAPTOP-HAKQIOL9 MINGW64 /f/Voice assistant (master)
$ git status
On branch master
nothing to commit, working tree clean
```
